Add Pins From A List Of Locations

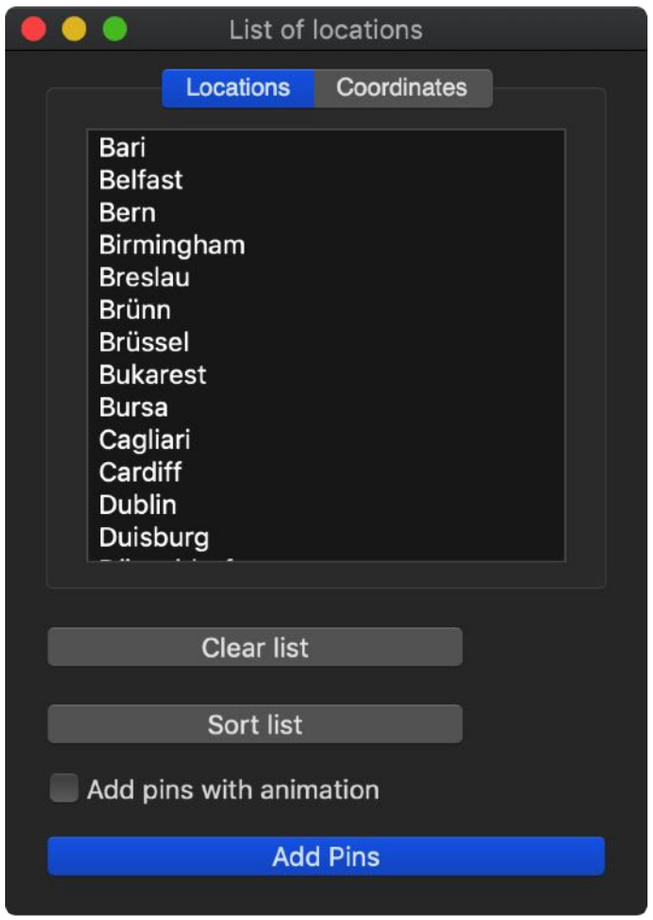
© 2014-2019 CIMSoft,@ pps4Me

ADD PINS FROM A LIST OF LOCATIONS

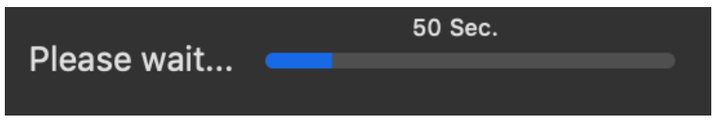
To add a list of points, click on the «List of points» icon in the toolbar menu.

This open the window «List of Locations». You can enter or paste a list of point by county, city of any location. The list will be taken into account in the following field separator:

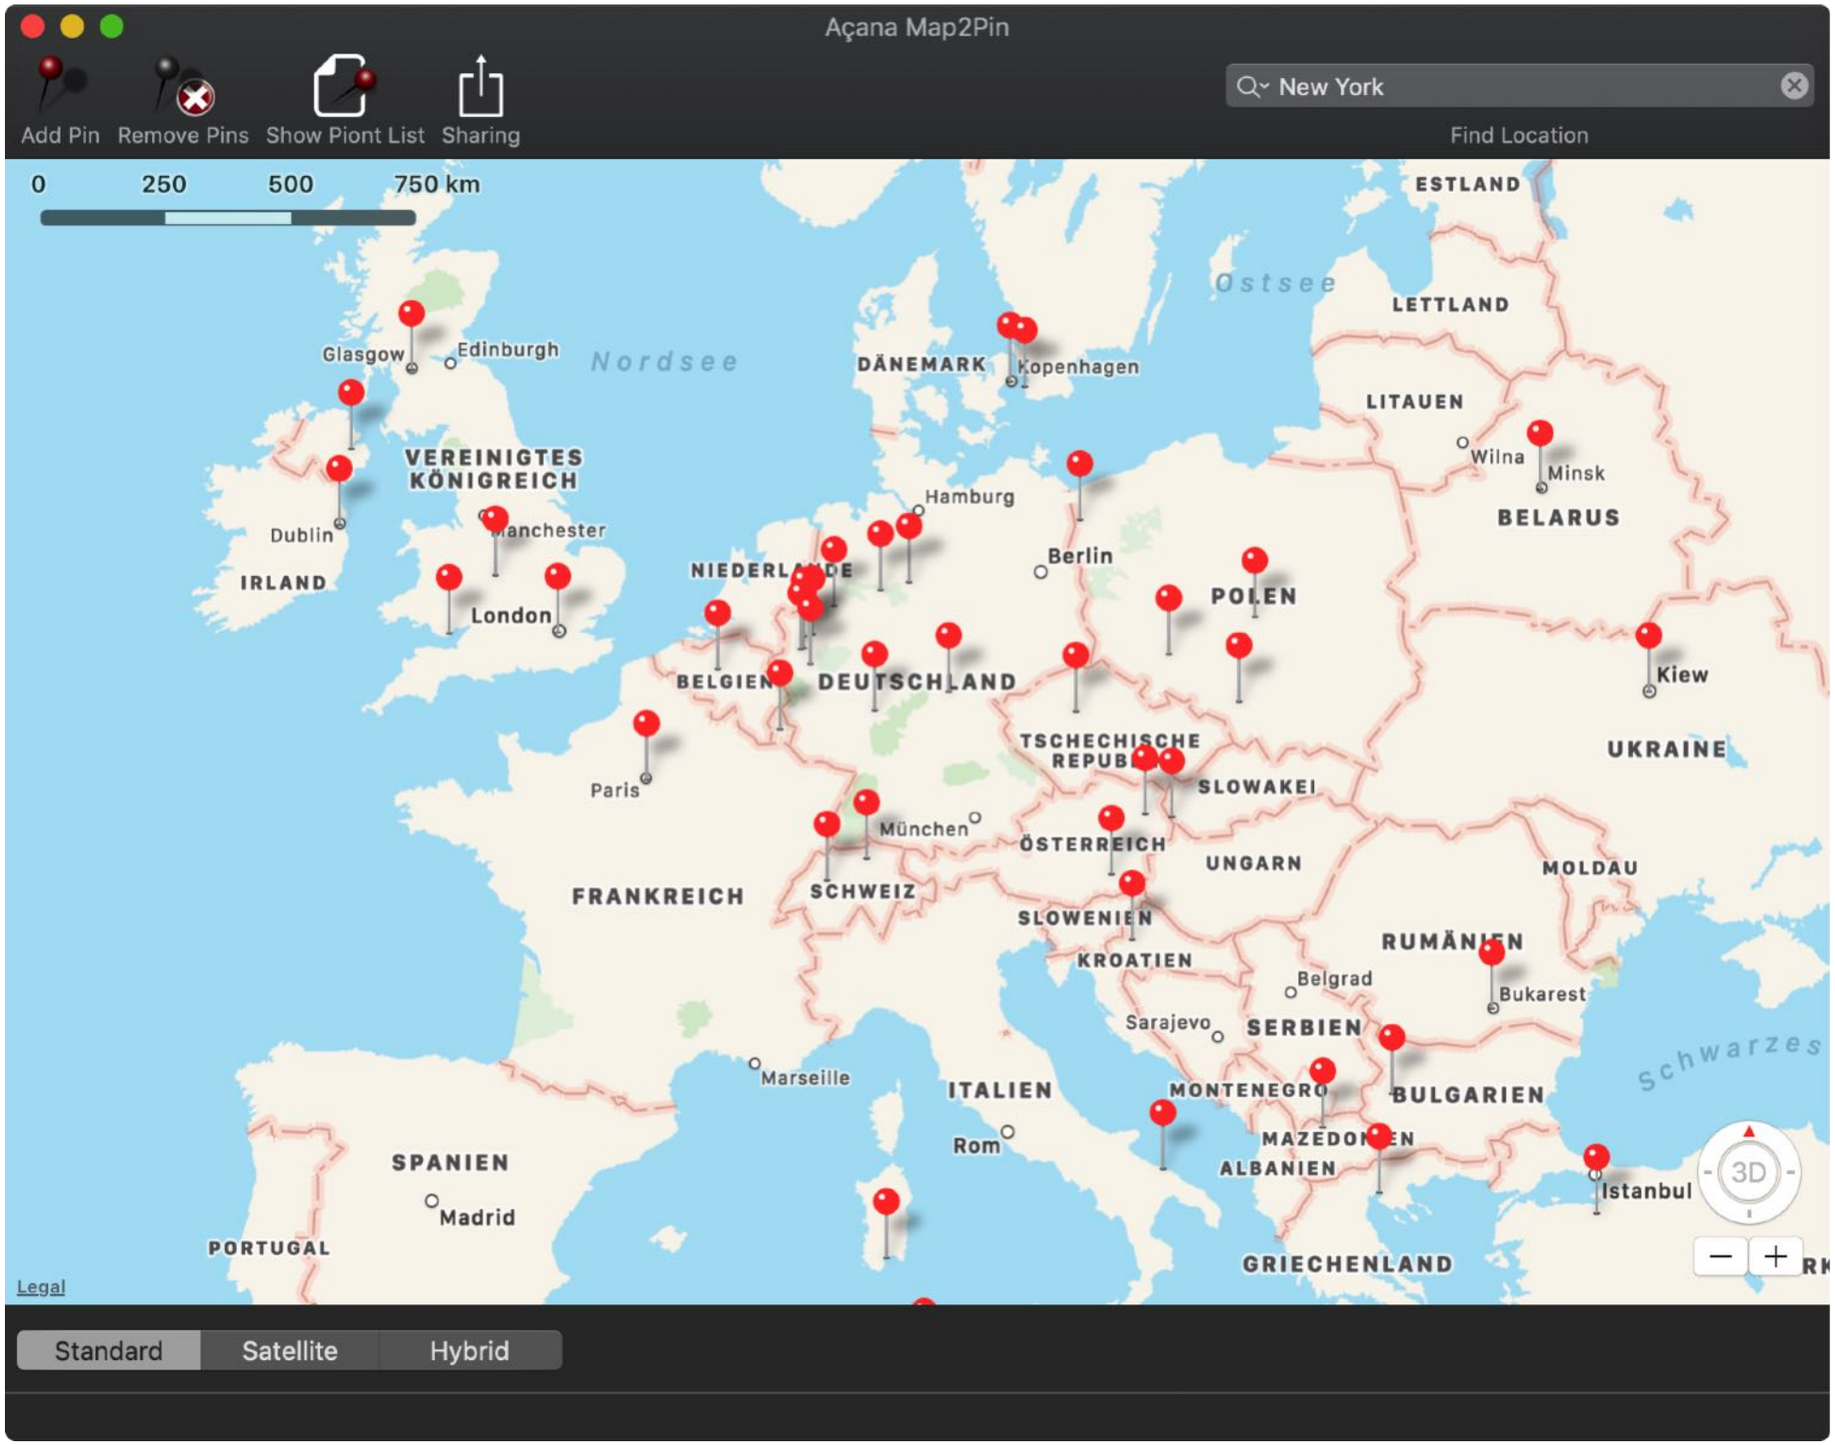
- Comma
- Semicolon
- TAB
- EOL (end of line)



By clicking on „Add Pins" all pins are set and the last point in the middle of the map. This function is limited to a maximum of 50 places. First of all, the first 50 pins, and after a delay of 60 seconds the remaining the next 50 pin or resist the pins.



Add Pins From A List Of Locations



Every pin has a title (city) and a subtitle (state, country). Clip on a pin to see this data.

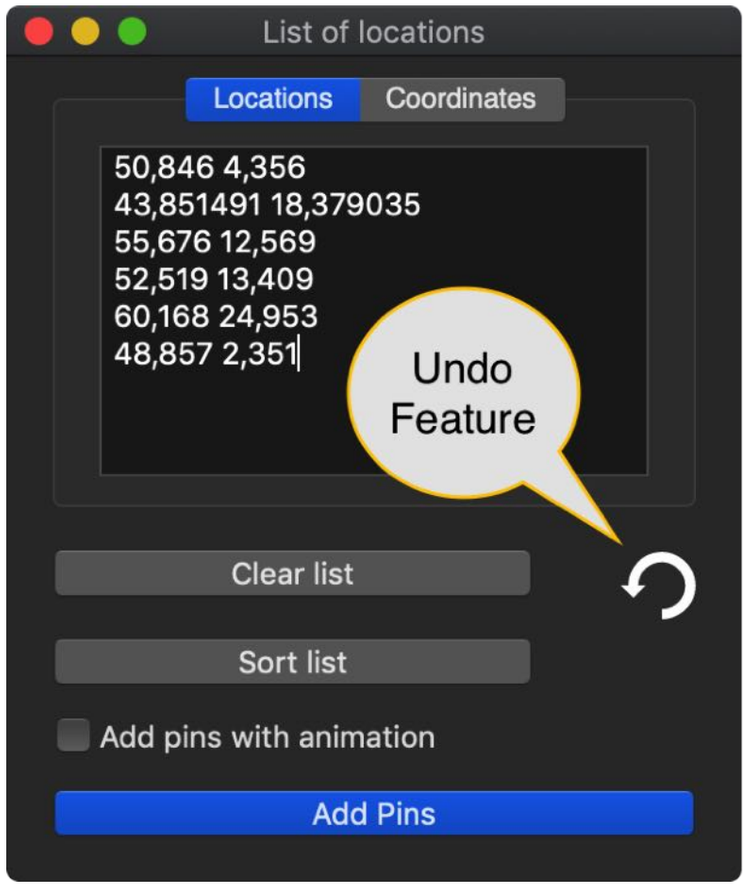
Add Pins From A List Of Locations

If you restart the application, your last used locations are available again and you can use it directly to add new pins. To use a list of locations (ASCII text file) you can drop a file to the application icon in the dock or drop it into the main window of «Açana Map2Pin». If you have used a wrong file, you can use the undo feature and the previous list of locations is available again.



You can also use the menu to read your locations from a file or add locations to your current list of locations.
