### OPERATION OF Açana

### SCREEN CAPTURE

#### OPERATION OF «AÇANA SCREEN CAPTURE»

The application starts without a window and it only visible on the menu bar at the top of the main screen. The available commands can be selected with the left or right mouse button from the application menu. To take a screen capture, select "Take screen capture" from the menu. To change option, select or unselect an option.

### NTERACTIVE MODE

### INTERACTIVE MODE

As default mode «Açana Screen Capture» starts always in interactive mode, because then you have the most features and options to take a screen capture. In interactive mode you have theses features and options:

- Drag a rectangle with the left mouse button to take screen capture
- Swap between screen- and window capture mode with the space bar on your keyboard
- Press Ctrl key to copy the screen capture to the clipboard
- Press Esc key to cancel the screen capture.

In interactive mode you have these additional features:

- Copy screen capture to the clipboard
- Open screen capture in preview

© 2015-2025 CIMSoft,@ pps4Me

### **S**CREEN CAPTURE

### TAKE A SCREEN CAPTURE

Is the mode interactive not activated, a full-screen capture will be created as a screen capture.

Interactive mode is deactivated

Use only the main display	
nteractive mode is activated	

III Take screen capture	
Copy to clipboard	
Capture cursor	
✓ Interactive	

Use only the main display

In the none interactive mode you have these additional features:

- Copy screen capture to the clipboard
- Screen capture include cursor
- Create screen capture only from the main screen
- Send screen capture as email
- Open screen capture in preview
- Create screen capture with the size of a selected window
- Create screen capture with self timer delay

© 2015-2025 CIMSoft,@ pps4Me

### TAKE A SCREEN CAPTURE

With the feature "Capture the screen with selected window area" you can create a screen capture true all overlapping windows.

Result:

Example:

If you take a full-screen capture and you have more than one display, a screen capture for each display will be created with the extension of the display number in the file name.

Example:

AcanaScr\_2015-07-30-003727\_1

AcanaScr\_2015-07-30-003727\_2

### CAPTURE A Window

### CAPTURE A WINDOW

To take only a single window, choose "Capture single window" and then choose "Take screen capture" from the menu.

n Spen in preview

Capture window without attached window

If you move the cursor into a window, it will be light blue inked. This serves to better overview which window is selected. If the selected window are superimposed from other windows, you don't bing this window in the foreground before you take a screen capture. «Açana Screen Capture» takes the complete window include the hidden areas, if it is in window mode.

Example:
